CIVIL | ENGINEERING | CONSTRUCTION

**MARKET LEADER
BROADTRANS HAS BUILT
A SOLID REPUTATION AS
PERTH'S PREMIER CIVIL
CONSTRUCTION COMPANY,
PARTNERING WITH THE
MOST WELL RESPECTED
BUILDERS, ENGINEERS
AND DEVELOPERS ON
A DIVERSE RANGE OF
PROJECTS SINCE FIRST
BREAKING GROUND
IN 2004.**

The WA owned and operated company offers expertise in a wide range of capabilities – from civil works, earthmoving, roads and infrastructure, car parks, and land development. This has seen the company build and maintain its status as Perth's one-stop solution for civil construction.

Repeat partnerships with the biggest names in civil engineering, commercial and residential construction and land development are down to Broadtrans' vision of providing better quality, cost and delivery. Its ability to build strong working relationships, contribute positively to work sites and its in-house team's skill in handling each project from green light to completion make Broadtrans a market leader.

Satisfied clients return, thanks to Broadtrans' ability to deliver a successful outcome on every project, every time. However, the company is constantly expanding and warmly welcomes new partnerships to experience the top end customer service at Broadtrans.

»» Broadtrans Civil first became involved in the Honeywood projects when they undertook the remediation of the first builders' display village, and later when they prepared the primary school site for the first phase of development. Broadtrans Civil have just completed construction of the 72 lots which comprise Honeywood Rise Stage 3.

Our faith in Broadtrans has been well founded having completed Stage 3 on time, within budget and contract value, and to a very high standard of workmanship.

Of great importance to Satterley has been Broadtrans clear and proactive service mentality and their willingness to assist by undertaking minor works required to keep our clients happy. It has been a pleasure working with Gavan, Paul, Rod and the Broadtrans Civil team. »»

John Hirdman, Senior Development Manager
Satterley Property Group

Broadtrans' vision is to provide better quality, cost and delivery. Honesty, transparency and hard work are highly prized traits amongst the team. A long history of being trustworthy and delivering promptly has ensured its clients are confident in Broadtrans' services and capabilities, and repeat business is the status quo.

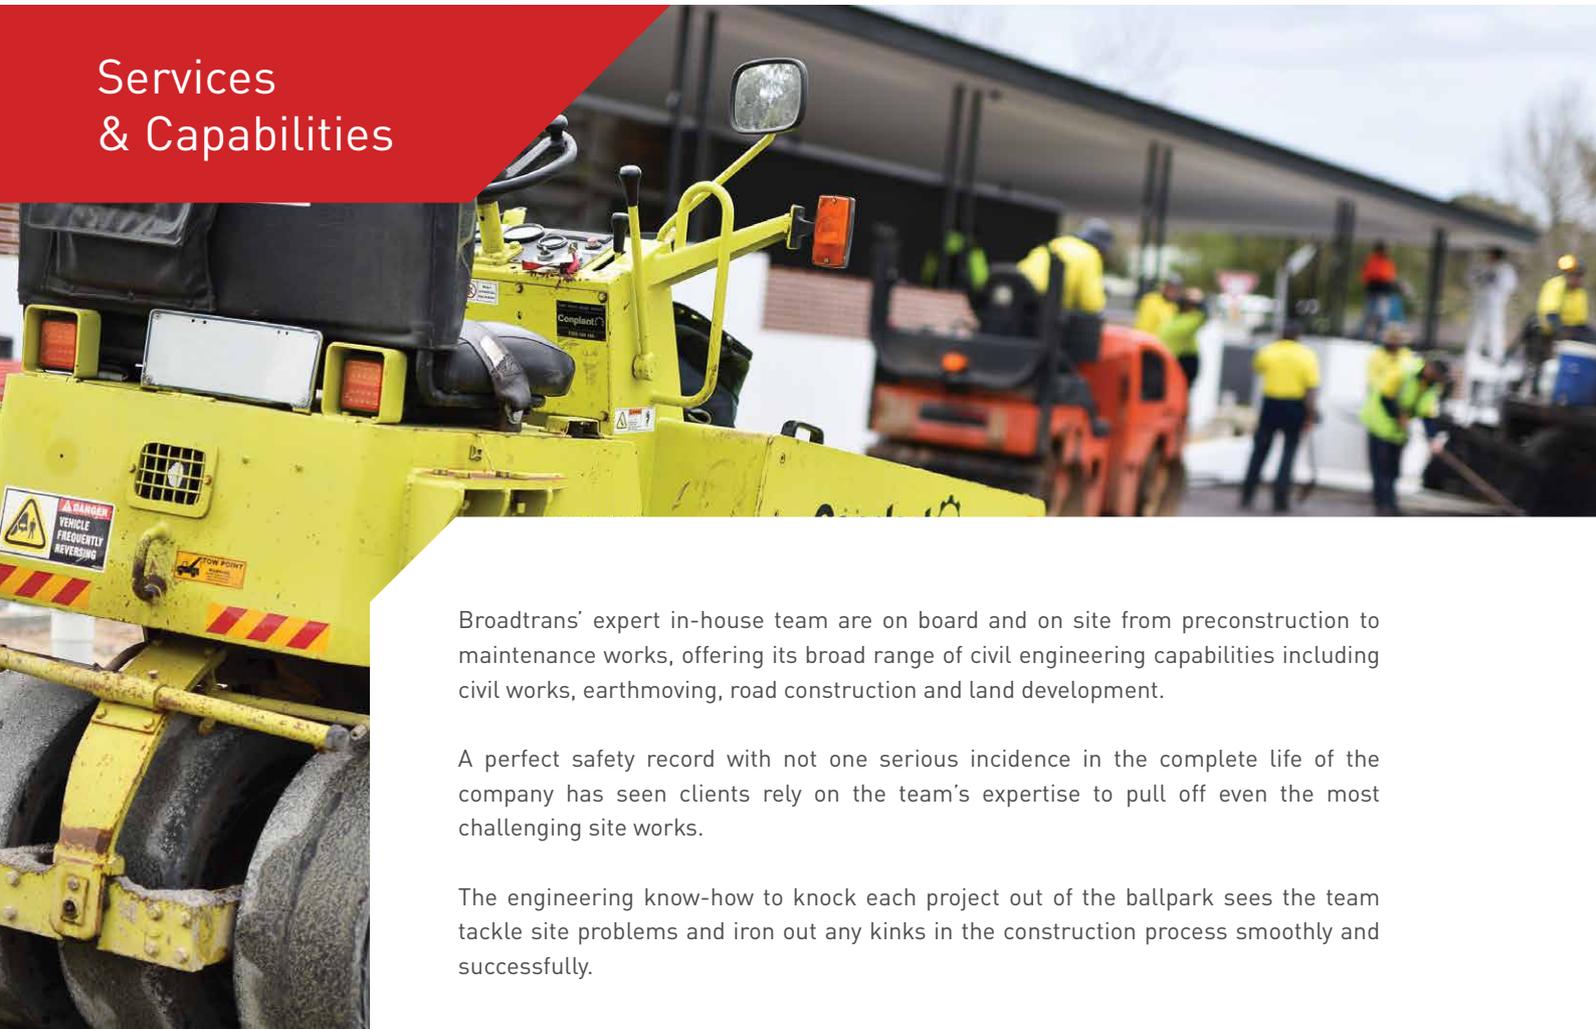

The carefully assembled team is skilled in problem solving on site and offers the technical know-how to get the project delivered on time and within budget. By maintaining the boutique nature of the business, stocked with only the most qualified professionals, Broadtrans ensures it remains tight-knit but capable of mighty results.

Broadtrans steers clear of a one-size-fits-all approach. Each and every project is taken on board with the team's full attention directed at the nuances of the site and the specific needs of the client.

Quick to respond and eager to rise to a challenge, the team think on their feet and take up the client's call to action promptly and professionally, which has seen the company grow exponentially each year.

Services & Capabilities

Broadtrans' expert in-house team are on board and on site from preconstruction to maintenance works, offering its broad range of civil engineering capabilities including civil works, earthmoving, road construction and land development.

A perfect safety record with not one serious incidence in the complete life of the company has seen clients rely on the team's expertise to pull off even the most challenging site works.

The engineering know-how to knock each project out of the ballpark sees the team tackle site problems and iron out any kinks in the construction process smoothly and successfully.

” Broadtrans brings a level of client needs understanding that sets them apart from others, and makes them a contractor of choice ”

Broadtrans believes it has hit its stride, being large enough to get the job done and small enough to still care about each client, and each project. It has the capability and expertise of a large operator without losing the soul and hands-on customer service ethics of a boutique offering. The company offers a one-stop solution for a clients total civil construction requirements thanks to its broad range of expertise and qualified in-house team.

Being WA owned and operated, with the director on the ground every day, Broadtrans ensures personalised service and demands accountability from its core team of highly skilled individuals.

The director is available and on-call for every project, allowing clients to rest assured that Broadtrans holds the project in earnest.

It's a company that doesn't simply aim to please, the team will go above and beyond to overshoot client's expectations of service and product.

Gavan Prunster

Director

Gavan is a second-generation earth moving expert who started learning the ropes from his father at the tender age of 10. His father's strong work ethic and dedication to get the job done has shaped Broadtrans as it appears today. Having also worked long term for Seacrest Homes' Delstrat Earthmoving company, his entrepreneurial passion saw him go it alone in 2004 with the inception of Broadtrans Earthmoving. The company went from strength to strength and expanded into Broadtrans Civil in 2012.

Safety

Broadtrans has not had a single safety incidence against its name, proudly holding a perfect safety record over the complete life of the company. This is down to its unwavering commitment to health and safety procedures, which remain a foundation for the company's everyday business practice. The Broadtrans team shows commitment to in-house safety guidelines and processes, and likewise those of its clients.

Its in-house Integrated Management System plays an active role in the development and implementation of Occupational Health and Safety management processes and encourage the Broadtrans team to take personal responsibility for the health and safety of themselves and their colleagues.

Broadtrans ensures the safety of its workplaces by providing intensive project inductions, ongoing education and training, and a consultative approach with clients, subcontractors and its team to ensure health and safety objectives are met across all projects.

Achievements & Credentials

Key Clients both current and in the past include.

- Satterley Property Group
- Nicheliving
- A.M.P Capital
- Department of Housing
- WALGA
- And various local City Councils

Key engineering firms both current and in the past include.

- Pritchard Francis
- Calibre Consulting
- Wood & Grieve Engineers
- Cossill & Webley

Company highlights have been the delivery of significant projects like Honeywood Estate for the Satterley Property Group, which holds a stellar reputation as one of the largest top tier land developers in Perth.

In September 2016 Broadtrans were included in the nomination by Nicheliving for The Urban Development Institute of Australia (UDIA) award for Affordable Development. Nicheliving won this award for the Nicheliving Medina development and Broadtrans was acknowledged for its professional and reliable service provided during the development.

” Broadtrans have successfully completed several projects with Peritas Civil. All projects were completed to the highest standards and to the satisfaction of the Developer and LGA. We found the Broadtrans team to be refreshingly co-operative and attentive. They bring a level of ‘client needs’ understanding that sets them apart from others, and makes them a contractor of choice when considering the next project. We have no hesitation in recommending Broadtrans. ”

Oleg Omelchuk, Manager Civil Engineering
Peritas Civil

Values

Broadtrans understand that the industry is evolving and encourages its team to continually improve on its knowledge and skill set. Thanks to this core value, the competency of the Broadtrans workforce boasts an impressive mix of expertise.

This educational emphasis sees the team deliver quality projects safely, to schedule, and within budget.

The Broadtrans management and the supervisory team have a wide range of civil construction projects under their belts, including large urban developments, road construction, housing estates, and various major infrastructure projects. This ensures the engineering capacity and on the ground experience to identify and act on potential challenges that arise during a project.

Company procedures include monitoring key performance indicators (KPIs), to allow for operational feedback and improvement within the team, while client responses are sought via a client questionnaire to shape improvement in Broadtrans systems.
